

# WELCOME TO CAMP HEAVEN

From Hakodate in the south to Wakkanai in the north, there are over 300 camping areas throughout the vast land of Hokkaido. Hokkaido has all of the necessary elements for great camping, such as blue skies, clean air, delicious foods, and beautiful scenery. It is indeed heaven for campers.

Many of the campgrounds in Hokkaido are located in the woods, parks and highlands, but there are also many campgrounds in areas like Furano where you are immersed in nature, or along the coast so you can enjoy the breathtaking view of the Sea of Japan while camping.

Further, there are plenty of auto campgrounds that are fully equipped with kitchen area and restrooms.

Many campgrounds also have bungalows and cottages that provide adequate accommodations even during the cooler seasons, as long as you bundle up.

There are also campgrounds that have baths or hot springs campers can use, so visitors can enjoy camping Japanese-style. It is possible to drive a camping car and stay at campgrounds run by resorts or cottages with outdoor hot spring baths, and enjoy exquisite meals prepared by professional chefs.

We can help you get your equipment such as tents, barbecue sets, and other items, as well as make arrangements for camping cars, and chefs to make your meals.
